Expect Statement To Follow Latest East-West Parley

BULLETIN
MOSCOW, Aug. 30.—(INS)—Envoys of the United States, Great Britain and France visited the Kremlin again today for their ninth meeting with Foreign Minister Molotov on the Berlin crisis.

MOSCOW, Aug. 30.—(INS)—The three western power envoys met at the French embassy in Moscow today for a brief joint conference before going to the Kremlin for new negotiations with Soviet Foreign Minister Molotov on Germany.

The next meeting with Molotov is believed set definitely for early this evening.

Expect Communiqué
A four-power communiqué on the talks is expected to follow this east-west conference—the ninth in the current series.

It is not known, however, whether it will be issued tonight or tomorrow.

(In London, a foreign office spokesman emphasized that the envoys have no power to negotiate on their own.)

(He said messages of instructions still are being dispatched from home, outlining the precise terms on which the envoys may proceed.)

There was widespread belief in the cities.

One Succeeds In Swimming Channel

DOVER, Aug. 30.—(INS)—Brimy weather brought a half-dozen new attempts today to swim the wave-tossed 20 miles of the English channel. Only one has so far succeeded.

A 41-year-old Egyptian army non-com, Hassan Abdel Rehim, was the lucky swimmer, arriving near St. Margaret's Bay, Dover, after 17 hours and 38 minutes of breasting the waves in a fault from France.

Three of his countrymen, however, gave up the attempt.

Airline Crash In Minnesota Takes 36 Lives

Preliminary Reports Indicate That Plane Was Struck By Lightning

SHIP APPEARS TO FALL APART

(BULLETIN)

WINONA, Minn., Aug. 30.—(INS)—Officials probed the scattered wreckage of a Northwest Airlines plane today to determine the cause of a crash which killed 36 persons near Winona.

Preliminary reports indicate the twin-engine Martin 2-0-2 had been struck by lightning.

Witnesses said the ship appeared to fall apart in flight as it battered its way through a hail storm late yesterday en route from Chicago to Minneapolis.

Ran Into Thunderstorms
The Civil Aeronautics Administration said Capt. Robert Johnson, of St. Paul, pilot of the ill-fated craft, reported over LaCrosse, Wis., that he had run into thunderstorms.

A woman who was driving nearby when the crash occurred said some sections of the plane fell off in mid-air before the main body of the ship plummeted earthward and struck a bluff about 450 feet high.

Both NWA and the CAA rushed investigators to the scene of the crash which occurred only about 125 miles from the plane's destination.

Rescue workers found the pilot's body still in the nose of the airliner, while one woman was clutching a small child when the body was discovered.

Finding of the bodies of the dead was hampered by darkness and the fact they were scattered over a wide area.

The airline said the crash was the first fatal one in more than 20 years' operation over the Minneapolis-Chicago route.

Wreckage For Miles
Wreckage from the plane was found as far as five miles from the scene of the disaster. Other wreckage was strewn over a two-mile area along the Minnesota-Wisconsin border.

Mrs. Charles Ginter, who was traveling in her car, said she saw the airliner "rolling like a barrel with pieces falling off it." She said a "very bad storm" was raging at the time.

Southeastern Minnesota had been ripped a little earlier by a severe storm which disrupted telephone lines, uprooted trees and damaged farm buildings.

U. S. Weather Bureau Forecaster Charles Wethe of Holman Field, St. Paul said a hail storm such as had been reported would give a plane a "terrific pummeling" if it were in the area.

Woolis Chamberlin Field at Minneapolis received reports that the airliner had run into a tornado before crashing.

Registration In City And County Starts For Draft

First Day's Registration For Peacetime Service Registration Begins

OLDER AGE BRACKET ENROLL DURING DAY

In spite of the fact that those charged with the registration of the young men of New Castle and Lawrence county, had only a few days in which to prepare for registering the large number who will be subject to the provisions of the Peace Time Selective Service law, the work was gotten under way this morning with a minimum amount of confusion.

This was due in a large measure to the fact that the work was in charge of two veterans of the war time draft procedure, namely J. R. Little, of Ellwood City, who served as chief clerk of County Board One; and Mrs. Marjorie Koonce, who was chief clerk of Local Board One, of New Castle.

They were on the job bright and early this morning, and by the hour due to open the office, had everything in readiness to register the first men subject to registration, namely the men born in 1922, after August 30, 1922.

School Men Assist
Assisting Mrs. Koonce with the registration of these from the city was Superintendent of Schools Frank L. Burton, who dropped his duties of getting ready for the opening of the schools here next week, to help out in the emergency; and John N. Cornelius, principal of the Oak Street school.

Mr. Little was doing the work of (Continued on Page Two)

Youth Of Nation Registering For Peacetime Draft

Expect 1,200,000 To Register In Nation Today—Total Registration Near 10,000,000 Seen

FIRST INDUCTIONS IN MID-NOVEMBER

By WILLIAM L. UMSTEAD
(U. S. Staff Correspondent)

WASHINGTON, Aug. 30.—The nation's youth begins registering today for the peacetime draft.

All male citizens of the United States born in 1922 after Aug. 30 are required to sign up today at the 30,000 registration places throughout the country. Registration booths open at 8 a. m. local time.

About 1,200,000 men will register before tonight, but Selective Service officials predict that less than one-fourth of them will be inducted into the armed forces for 21 months active duty.

Estimate 9,000,000 To Register
An estimated 9,000,000 men aged 18 through 25 will enroll before registration is completed Sept. 18. Registrants are being called on specific days by age groups.

Men born in 1923 must register tomorrow and Wednesday while those born in 1924 are to sign up Thursday and Friday. Registration of men born in 1925 will be conducted on Saturday and the following Tuesday. Other registration dates are:

Sept. 8 and 9, men born in 1926; Sept. 10 and 11, those born in 1927; Sept. 13 and 14, men born in 1928; Sept. 15 and 16, those born in 1929; and Sept. 17 and 18, men born in 1930 before Sept. 19.

Youths who have not yet reached their 18th birthday must register within five days after the date they become 18.

Inductions In Mid-November
No men are scheduled to be inducted until mid-November. The first inductees will come from the age group which registers today and most of them will go into the army, which has an initial call for 10,000 men.

Maj. Gen. Lewis B. Hershey, draft director, emphasized that exemptions under the present law will be extremely liberal and that no 18-year-olds will be called into uniform until they have reached their 19th birthday.

Selective Service officials stress that all men who are at least 18 years old but have not reached their 28th birthday must register unless they are members of the armed forces on active duty or foreign diplomats.

Predict Hurricane May Reach Coast Late Today

BULLETIN
MIAMI, Aug. 30.—(INS)—Ominous red and black hurricane warning flags fluttered along the coasts of the Carolinas today as a violent tropical hurricane, bearing winds as high as 125 miles an hour, roared toward the Atlantic seaboard.

Excited coastal residents began boarding up their homes and moving to safe structures in the cities.

(BULLETIN)
MIAMI, Aug. 30.—(INS)—The tropical hurricane threatening to lash the southeastern coastal areas veered slightly toward the north today.

The Miami weather bureau predicted the storm—last reported 250 miles off shore—would batter the coastal areas along Wilmington, N. C., by nightfall.

Earlier indications were that the Georgia and South Carolina mainland winds are predicted for the Carolina region early tonight.

Weather bureau observers said the hurricane was likely to maintain its present intensity.

Increases Speed
Meanwhile, the storm increased its speed of movement from ten miles an hour to 12 miles an hour.

The Miami weather bureau said it would post hurricane warnings only of early morning reconnaissance.

Repeat Performance Proves Fatal To Man

DETROIT, Aug. 30.—(INS)—Thirty-six-year-old Andrew Barbu, of Detroit, nearly drowned yesterday when he slipped into a hole while wading in the St. Clair river, near Algonac, Mich.

He took his wife back to show her the spot so she could avoid it.

He slipped into the hole again.

This time Barbu drowned before his terrified wife, also a non-swimmer, could summon aid.

Guard Planes Brought Back

Lieut. Rowland and Lt. Carpenter Fly Back Planes For Guard Use

MEN GET REAL ARMY TRAINING

When the 229th Field Artillery returned from Indianapolis Gap Saturday, they brought back two L-16 training planes, which were assigned to the troop, and the planes are now housed at the New Castle airport at Parktown Corners.

The planes were flown back by Lt. William C. Rowland, and Lt. Wayne R. Carpenter, who did a lot of flying, along with Capt. Francis G. Callahan, and the local air section received high commendation from General Strickler, for their fine work at camp.

Win High Praise
All the units of the 229th won high praise, especially the 229th Battery commanders and instructors for the splendid way they conducted themselves, the 229th receiving a superior rating.

The Headquarters unit was in bivouac, Tuesday, Wednesday and Thursday.

It may be hot at the present time, but the huge piles of ash seen at strategic locations along (Continued on Page Two)

Republicans To Open Campaign In Detroit, Also

By GEORGE MOISE

WASHINGTON, Aug. 30.—The Republican presidential campaign is going to start in Detroit too.

President Truman has announced he plans to launch his drive for a full term in the White House with a major address in Detroit on Labor Day.

The Republicans, not to be outdone, will follow with an answering address by Harold E. Stassen in the Motor City the following day.

Herbert Brownell, Jr., Dewey-Warren campaign manager, said that Stassen, defeated by Governor Dewey for the GOP nomination will speak for the Republican candidate at the Detroit Masonic Temple at 9 p. m. EDT Sept. 7.

Brownell asserted that Stassen would make "the opening speech in the 1948 Republican campaign." The address will be carried coast-to-coast by the National Broadcasting Company.

City Employees Given Raise

Council Votes For \$20.80 Monthly Pay Increase For City Employees

Council met in city hall today and by a vote of four to one, granted, effective September 1, an increase of \$20.80 monthly, to all city employees, excepting those elected to office. All council expressed themselves in hearty accord with the increase.

Safety Director Dick Davies voted against the ordinance, which Property Director Joseph D. Alexander introduced, and which was reported favorably from committee.

He said he was opposed to a flat 10 cents per hour for an eight hour day for 26 days a month. Instead, he favored an increase on a percentage basis, and said that, if the city had to borrow money "why not borrow enough and give a good raise."

Planned For Some Time
It has been known, for a week that Mayor John F. Haven and his colleagues were making an effort to provide financial relief for employees, whom all council agreed were in sad need of an increase.

However, the manner in which the raise was authorized, did not meet with council's unanimous opinion.

Councilmen Albert Hoyland and Dick Davies opposed the method.

The city does not have \$20,000 or slightly more needed, and will have to borrow the money from a bank.

It appears \$20,000 was added to make up \$89,000, needed for the city building. This money came from the Improvement of Streets (Continued on Page Two)

Seek To Identify Victim Of Slaying

Weymouth, Mass., Police Seek Sex Fiend, Blonde Woman Victim Branded

WEYMOUTH, Mass., Aug. 30.—(INS)—State experts joined Weymouth, Mass., authorities today in seeking the identity of a 30-year-old murder victim—an ash blonde with the initials "J. T." branded on both thighs.

The body was discovered in a wooded section of Weymouth Heights, a spot often used by automobile parkers.

Hunt Sex Fiend
Preliminary examination disclosed that the woman had been slain, possibly by a sex fiend, and tossed into sumac bushes and ragweed during the heat wave last week.

A check of the surrounding area showed no woman reported missing, and the search was extended.

Chief clues were the brand marks. Whether they might be the initials of the victim or perhaps the slayer, was uncertain. Apparently they had only healed recently.

Round World Trip In Amphibious Jeep Fails

MONTREAL, Que., Aug. 30.—(INS)—An Australian major and his American wife, who attempted an around-the-world trip in an amphibious jeep, arrived in Montreal today aboard the tanker S. S. New Jersey.

Major F. Benjamin Carlin, 35, and his bride of two months, the former Elinore Arone, 31, of Boston, were picked up 270 miles off New York last Wednesday after drifting helplessly for 10 days when their 24-foot "ship" developed engine trouble.

They had left New York August 7 and made an 18-day odyssey in an attempt to reach the Azores. The small craft broke a bearing, Carlin reported.

"We were mighty glad to see the tanker," Mrs. Carlin said.

Within minutes after their landing in this Canadian city, however, the Carlins announced they planned a third attempt "within three weeks," probably from Halifax.

Schuman Seeks To Form Cabinet To Serve France

By JOHN E. LEE
(U. S. Staff Correspondent)

PARIS, Aug. 30.—Ex-Premier Robert Schuman strove today to form a new French government today in a move to keep power from Communists on the left and DeGaullists on the right.

Schuman, who headed the French government for eight months until his cabinet's downfall five weeks ago, was named premier designate by President Vincent Auriol after Socialists failed to form a cabinet.

Socialist Paul Ramadier, also an ex-premier, gave up his attempt to rally a parliamentary majority behind a Socialist-led government when some moderate parties refused to accept his leadership.

But the center parties were convinced that unless they acted quickly to organize a new cabinet the country might split between extreme Leftists and Rightists.

This realization was believed to be behind President Auriol's quick action in naming first Ramadier and then Schuman to solve the present political crisis. Auriol is himself a Socialist.

For, unless a new government is organized speedily, new national elections will have to be called. It is thought that in a new general election the populace will desert the center and split its support between De Gaulle and the Communists.

Council To Buy Building Site

Launches Move To Acquire Site In First Ward For New Structure

Council took the first legislative step today toward acquiring a plot of ground in the First ward for the consolidation of the street department, sewer bureau, repair shop and also for storage purposes. The land will be acquired by condemnation proceedings from the GNCA which now controls it, for money the GNCA expended for its purchase, plus taxes.

When the land is acquired and the new buildings are erected, the city will dispose of the Taylor street building, Grove street structure and the Croton avenue repair shop.

The land is located at the foot of Bridge street and the Shenango river. It was formerly occupied by the Kline Lumber yard structures, and properties aligning the Erie railroad.

Decision To Drive Saves Lives Of New Castle Couple

Mr. and Mrs. John E. Knight of 133 Atlantic avenue can be very thankful today that they decided to drive to the west instead of flying as they originally had planned to do over the week-end.

The couple had planned to fly from Pittsburgh to Chicago and then board the plane of the Northwest Airlines to Minneapolis on their vacation trip. The couple had reservations made on the airliner that went down in a Minnesota swamp Sunday taking the lives of 36 people.

After thinking it over the local couple decided that they had sufficient time to drive to their destination and thus canceled their plane reservations. They are happy indeed that they called off their trip by air.

Summer's Worst Heat Wave Abates Slightly

(By International News Service)

The summer's worst heat wave abated slightly today in much of the nation but no real relief was in sight for the suffering citizens.

The U. S. Weather Bureau reported that a mass of cool air was moving in a southeasterly direction from Canada but that the temperature would not be affected materially.

Cooler weather was predicted today for upper Michigan, upper Wisconsin and it won't be so warm in the North Atlantic states and New England. Southern Illinois, Central Indiana and the lower Great Lakes region also will feel a slight drop.

However, through the midwest-

ern plains states the temperature was expected to range between 90 and 100.

Ninety-to-100 degree heat also was forecast for Colorado and Wyoming, with no break in the warm weather predicted for at least "several days."

The mercury in the majority of the Eastern states was expected to hover in the 90's. Pennsylvania and Eastern New York were figuring on temperatures in the mid-90's.

In the nation's capital, a violent freak thunderstorm dropped the temperature from a high of 98 to 80 degrees last night. The storm also ripped down power lines and fell (Continued on Page Two)

So what if the day is sultry and the sun is blazing hot, and what if the streets just radiate heat and the weather man's on the spot. I pay no heed to the weather, it can stay as it is or rise, let the sunny beams warm the land and streams, and the glitter stay on in the skies. I'm out where the air is all seepy, where the creek thrills a heartening song, and I rise when I wish for leafing's my dish, for a week and while that isn't long, it's pleasant to sit near the shade trees, and watch the hours jog on their way, so don't bother me what the weather man says, it's 88 today.

New Castle Man Aids In Rescue At Lake Erie

Two Brothers And Sister Drown In
Lake Erie Tragedy, Parents
Hopefully Look On

A New Castle man, Charles Blossberg is credited with assisting in the saving the life of an Allegheny county girl on Saturday at Lake Erie, during an accident in which two of her brothers and another sister drowned.

The local man with Andy Nagy and Dennis Erhart of Erie, were fishing in treacherous Misy Bay located off the extreme east end of the peninsula facing Erie, when they heard the cries of the parents of the children, John, Shirley, Herbert and Beatrice Shoup, who were wading in the water. The men were able to save the life of Beatrice while the other three had disappeared under the water before they could reach them.

While visiting a brother in Venango county, the parents of the children, Mr. and Mrs. Jacob of Oakdale, a suburb of Pittsburgh drove the family to Lake Erie, Saturday for a fishing expedition. While the parents fished, the children waded, with the tragedy following a short time thereafter.

The body of Herbert, 10, youngest of the drowning victims has been recovered by coastguardsmen, while Shirley, 12 and John 11, still remain in their watery grave. Coastguardsmen have dragged the bay for hours but have been hampered by the irregular terrain along the bottom of the lake at that point.

Mr. Shoup, father of the children is an engineer on the Montour railroad. The parents have three other children, aged 20, 19 and 16 who did not accompany them on the fatal trip.

GUARD PLANES BROUGHT BACK

Thursday at the artillery range and while there regular field equipment was used, battery streets were lined up, and the men lived in tents.

While at the range, the men fired some 500 rounds of 105 M.M. ammunition, and Wednesday, had the pleasure of being visited by Governor Duff, who visited the gun emplacements and talked to the gun crews. Capt. Eugene Kirker, battalion public relations officer, had the pleasure of meeting the governor and showing him around.

Well Pleased
Major Edward G. Eakin, battalion gunnery executive, did a fine job of planning and directing the firing of the 229th's howitzers, and Capt. Alfred G. Barnes, battalion plans and operations officer, also did a fine job in helping the local units to function smoothly and efficiently.

Lt. Col. George F. Mitchell was well pleased with the way the men conducted themselves, particularly the young rookies, and their conduct shows that they come a long way toward being a seasoned outfit.

Word received from the 28th Division Headquarters indicates that each battery will soon have a full time administrative assistant who will be under civil service, and will mean a good job to the right person who can qualify.

**PREDICT HURRICANE
MAY REACH EAST
COAST LATE TODAY**

(Continued from Page One)

sance flights showed the storm continuing along its present course.

However, all small craft were advised to use extreme caution. The initial blast was expected to be felt late today, if the storm did not reverse its course and head back to sea.

The hurricane moved with its strongest winds clocked at 120 miles in diameter.

The weather bureau warned the coastal cities that approach of the hurricane "should cause increasing winds and heavy seas along the coasts of the southeastern states".

Pa Newc Observes

(Continued from Page One)

the state highways in Lawrence county indicates that preparations are being made for the snow and ice that will cover the highways later in the year.

Pa Newc notes that the Kiwanis Club has joined the Rotary and Lions clubs in erecting new signs at the entrances to the city, announcing their meeting time.

One of the notable flower gardens of the city is that to be seen at the southwest corner of Highland avenue and Elizabeth street, Pa Newc opines.

What was once the ball field in Edenburg is now displaying one of the finest corn fields of the county. The ball field was moved to a new location during the past few years.

Pa Newc was surprised recently to find a huge yacht parked at one of the local overnight parking stops for trucks. The yacht was being transported east by truck.

Terrid weather conditions of Saturday didn't seem to put any check on the crowds that came downtown for shopping expeditions to the stores.

Most all of the state highway bridges throughout the county are now sporting a new coating of aluminum paint.

There seems to be a shortage of lemons around the city, compared to the courts that flourished a few years ago.

Visiting Mt. Jackson on Sunday, Pa Newc finds that workmen have made good progress in their task of widening the highway in the village itself preparatory to black-topping the entire surface. A good portion of the southern half of the road is completed or in the process of having concrete poured. The road from the top of the pitier hill leading from Mt. Jackson to town through to the top of the hill leading off of Mt. Jackson is to be improved.

Roasting ears in copious quantities were offered at roadside stands in the county over the week end. Tomatoes were found also along with other garden produce which made a comeback with the warmer weather.

Local families are preparing once more for their final fling of the season with the extra long Labor Day week end coming up. Many county children will be in school at that time, but city boys and girls will be able to accompany their parents as local schools are not scheduled to open their doors until September 8.

REGISTRATION IN CITY AND COUNTY STARTS FOR DRAFT

(Continued from Page One)

registering the county men who applied himself, but they were fewer in number here.

County Superintendent of Schools John S. Syling endeavored to round up enough teachers from the county, to man the registration placed in the rural districts, thus assisting County Board 86 to get things in shape.

In Ellwood City
In Ellwood City, the work was being capably handled at the Ellwood City high school building, and in most of the other places, the work was going forward.

An additional registration place has been designated by County Board 86, namely the New William high school, where the work will be in charge of Supervising Principal Walt Whitman.

A large percentage of the men registering today were men who were veterans of the late war, as will likely be the case in the older age brackets, these men being at the top of the age list, and all of them would have had to register during the period of the last war.

Registrations continue daily for a period, according to the previously announced program.

GURTNER-DENNY

VOWS EXCHANGED

At an impressive ceremony Saturday morning, August 28, at 9 o'clock a. m. in St. Mary's church, New Castle, Miss Betty Gurtner, daughter of Mr. and Mrs. George Gurtner, of Pulaski, became the bride of James E. Denny, son of Clarence Denny, of R. D. 1, Edinburg. Rev. Fr. Francis M. McCarter officiated at the double ring ceremony.

The bride, given in marriage by her father, was attired in a gown of white slipper satin, fashioned with a hoop skirt with the full skirt caught up in several places in the front to reveal a petticoat trimmed in eight tiers of lace; it ended in a long train. She wore a fingertip veil trimmed with the same lace that trimmed her gown. The veil fell from a crown of seed pearls, and she carried a white prayer book, gift of the groom with an orchid and streamers of stephanotis and baby mums.

Mrs. Ray Slavin, as matron of honor, wore a gown of pale green with a matching shawl veil which fell from a crown of mixed flowers. She carried a colonial bouquet of mixed flowers.

Arson F. Armond served the groom as best man. Following the ceremony there was a breakfast for the bridal party and immediate families at the home of the bride's parents, followed by a dinner in the afternoon and a reception in the evening for 175 guests, also at the home of the bride's parents.

The newlyweds left on a wedding trip to Philadelphia, New York City and up the eastern coast. Upon their return they will reside temporarily at the home of the groom's father until the completion of their new home.

Mrs. Denny is a graduate of West Middlesex high school and is employed at the Westinghouse Co. in Sharon.

Mr. Denny, a graduate of Union high school and a veteran of four years with the U. S. Army, during which time he took part in the European campaign, is now employed at the Valley Manufacturing Co. in New Castle.

SISTERHOOD DANCE

HIGHLY SUCCESSFUL

New Castle Country club was the scene of a highly successful dance Saturday evening sponsored by the Temple Israel Sisterhood. Largely attended both by local residents and a number of guests from out-of-town, the semi-formal dance marked a highlight of the summer season on the sisterhood's calendar of special activities.

From 10 o'clock on an orchestra played for dancing and as entertainment a couple of professional dancers from a Youngstown studio gave an exhibition of ballroom dancing.

Tables on the terrace added to the attractiveness of the setting for the unusually large crowd in attendance.

Chairman of arrangements for the dance were Mrs. Charles Levine and Mrs. Forrest Raffel, and to them, ably assisted by their committees, goes much of the credit for the success of the evening.

It is planned to make such an event an annual one.

Expressing Our Deep Appreciation

Our entire personnel, headed by Mrs. Clara Cassachia, join me in expressing our deep appreciation to you, the people of this community, for your heart warming response during the Opening Days of our newly enlarged store.

It is because of my great faith in the future of New Castle that gave me the courage to build this fine store which compares favorably with the leading apparel stores in the big metropolitan cities. I hope you share my opinion that our new store is distinctive, not only because of its decorative features, but more so because of the unusual and outstanding fashions that can be found here.

Fortified with a lifetime of experience in buying and creating apparel fashions in this country and abroad, I was sure I would find you very encouraging in your support of our store which I hope in due time to be recognized as an outstanding institution, not only in this community but throughout the eastern part of our nation.

Farm, Home News**Extension Representative Lewis C. Dayton,
Agriculture, and Mrs. Edna M. Kishman,
Home Economics**DO NOT NEGLECT HEIFERS ON
PASTURE**

Where are those yearling heifers

and how are they doing? Often

dairymen visit their summer pas-

tures and count the animals to see

that they are all there, but pay no

attention to the amount of feed

available nor the conditions of the

animals.

Quite often heifers come home

at the end of the pasture season

in a thin, unthrifty condition. Many

of these heifers will be hard to

breed because of the poor inade-

quate pasture fed during the sum-

mer. To put them in good flesh

will require expensive grain, when

a change of pasture or some hay

fed on pasture would have main-

tained their weight and growth.

It is easy to forget the heifers

during busy summer months. True,

they are providing no income—not

now. But these same heifers, next

year and for several years to come,

will be the milking herd. This sum-

mer is the time to grow and devel-

op the dairy machine properly for

future production. Be sure they

are getting enough feed to keep

them growing. Only well-grown

thrifty heifers develop into good

producing cows.

**NICOTINE SULPHATE KILLS
CHICKEN LICE**

Several materials can be used to

control lice on chickens, a common

condition during late summer and

early fall, but nicotine sulphate is

the most convenient. It can be used

without handling individual birds.

Full-strength nicotine sulphate

is brushed on the roosts a half hour

before the flock goes to roost. One

application will destroy nearly all

the lice present, but a second dose

in 10 days is needed to destroy lice

hatched meanwhile.

Pullets treated when housed sel-

dom are bothered with lice before

the following summer. One pint of

the material will treat 200 to

300 feet of roosting space. Lice

cause much discomfort to birds

and lower their egg production and

physical condition. The lice live

on the birds and feed on feathers

and scurf of the skin.

Gravity-Defying Docket Possible

Seriously Consider Missile
Which Would Pierce
Field, Circle Earth

By JOHN DRUCKENBROD
(U. S. Staff Correspondent)

WASHINGTON, Aug. 30.—Military scientists said Saturday that "serious consideration" is being given to development of a new rocket which would penetrate the field of gravity and circle the earth.

The new missile than would move continuously around the earth in a path 600 miles away. The scientist also disclosed that the German V-3 rocket has reached a record altitude of more than 114 miles.

These developments were reported by Dr. James A. Van Allen, a member of the Johns Hopkins University staff who has been conducting V-3 tests under sponsorship of the army, navy and air force.

The V-3 rockets were used to send scientific recording instruments into the upper atmosphere to study the natural phenomena of nuclear physics—believed to be a potential source of power greater than atomic energy.

Vital Discoveries

In a report to the association of terrestrial magnitude new meeting at Oslo, Norway, Dr. Allen declared that the tests brought important discoveries in the mysterious activities and intensity of ultra violet rays, high frequency radio waves and powerful cosmic radiations.

Dr. Allen said that results led the navy to finance production of a "small, relatively inexpensive" rocket, called the Aerobee, for further research.

In connection with the round-the-world rocket of perpetual motion, Dr. Allen asserted:

"Serious consideration is being given to the development of a satellite missile which will continually orbit around the earth, at a distance of, say, 1,000 kilometers. He gave no indication, however, of when such a rocket might be perfected.

A scientist associated with Dr. Allen said that this called for a rocket which could be shot past the field of gravity.

The missile would then be "on its own", and naturally revolve around the earth like other heavenly bodies.

Special Ceremony To Launch Clean Streams Campaign

Dredging of Choked Schuylkill River to Dramatize State's Undertaking

HARRISBURG, Aug. 30.—(INS)—The Commonwealth plans to dramatize its enormous clean streams drive with a special ceremony next month to launch silt-dredging of the culm-choked Schuylkill river.

Gov. James H. Duff probably will flip a switch to set in motion the first dredging operations that will scour approximately 50 miles of muck-padded river bottom between Cross Keys bridge and Reading during the next two years.

No date has been fixed for the ceremony which will be held near the bridge, but dredging is scheduled to get underway by mid-September, according to Deputy Secretary of Forests and Waters E. S. McAuley, who oversees the project. Invitations will be issued to more than a score of state and local officials and lawmakers to witness the historical pageant signalling acceleration of the drive against the century-old stream pollution problem.

They will include Lt. Gov. Daniel B. Strickler, U. S. Sens. Edward Martin and Francis J. Myers, members of the House and Senate Appropriations Committees, the mayors of Philadelphia and other cities fringing the river, burgesses of boroughs lining the stream, the presidents and chief engineers of the Pennsylvania and Reading railroads, State Health Secretary Norman W. Vaux, representatives of women's clubs and the press.

Congressmen will be invited from Berks, Schuylkill, Chester and Montgomery counties.

The ceremony will start with a luncheon at Reading, Duff and Secretary of Forests and Waters M. F. Draelmel will discuss the progress and goals of the multi-million dollar river clean-up program embracing bans on sewage and industrial waste discharges as well as silt.

Desilting of the Schuylkill river alone is expected to cost \$35,000,000. The state will dredge the accumulation of coal particles washed down from the anthracite region over an area between Cross Keys bridge and Norristown. The federal government will push the work to Philadelphia.

Ranks-To-Fame Colonel Named To 28th Position

INDIANTOWN GAP, Pa. Aug. 30.—(INS)—Col. T. Linus Hoban of Scranton, a man who rose through the ranks, on Friday was named assistant division commander of Pennsylvania's famed 28th Infantry Division.

Col. Hoban, one of the state's outstanding World War II heroes and a veteran of World War I as well, probably will be promoted to the rank of brigadier general by Gov. James H. Duff.

Maj. Gen. Daniel B. Strickler, division commander, said that Col. Hoban will take over his new duties September 1. The general has recommended Hoban's elevation to the brigadiers.

Hoban, presently commander of the division's 108th Infantry Regiment, has spent most of his adult life in the National Guard.

He enlisted as a private and made his way up to the regimental command. In addition, he served on the division staff during World War II.

Churchmen Warned About Unqualified Support Of Zionism

AMSTERDAM, Aug. 30.—(INS)—Delegates to the World Council of Churches in Amsterdam were warned Friday against unqualified support of Zionist ambitions in Palestine.

Dr. Stanley Morrison, secretary of the Egyptian Missionary Society, termed such support "mistaken theology and bad politics" because

it "blinds the eyes to reasoned judgement".
Dr. Morrison said nations of the Near East are becoming increasingly wary of United Nations resolutions on the Holy Land because they suspect such decisions merely "disguise the motives of the great powers."
"Considerations of domestic politics, imperial communications and control of Near East oil appear to carry more weight with western governments than considerations of justice and equity."
Dr. Morrison also advised the council that what he described as the absence of religious liberty in Moslem countries is discriminating against both Christians and Jews.
Such conditions, he said, have created a conception of citizenship in which neither Christian nor Jew "appears to have any legitimate place".

CIO Leaders To Chart Political Course For Year

WASHINGTON, Aug. 30.—(INS)—The CIO high command meets today to chart a course for the organization's six million members of the 1948 presidential campaign. The 51-member executive board, which thus far has done no more than take stands against the third party candidacy of Henry A. Wallace, is expected to endorse President Truman.

In any case, the board is almost certain to renew CIO demands for repeal of the Taft-Hartley act passed over Mr. Truman's veto. This probably will be coupled with a call to the rank and file of organized labor to help defeat members of congress who voted for the labor law.

The AFL took a similar position early last week in a session of its executive council at Chicago. The AFL, however, followed its traditional policy of withholding official endorsement of any presidential candidate.

Housing Shortage

Shows Improvement

ST. LOUIS, Aug. 30.—(INS)—A labor department official said today the U. S. can expect "gradual improvement rather than continued worsening" of the housing shortage.

Herman B. Beyer of the department's bureau of labor statistics made the statement in a speech before the encampment housing committee of the Veterans of Foreign Wars.

Beyer declared, however, that the shortage is still "severe" and cannot be overcome completely in a year or two. He said: "A break is coming sometime. Costs won't go down to the pre-war level, nor will there be a sharp drop of 10 or 15 per cent within a few days, such as might come on a securities exchange."

"The Devil's Parliament" was the name given to an English parliament convened by Henry VI, which met at Coventry in 1456, and unjustly attainted the Duke of York and his adherents of high treason.

SINCE 1875

Around Hollywood

By RUTH BRIGMAN
(Hollywood News Service Staff Correspondent)

HOLLYWOOD, Aug. 30.—Before you celebrate many more birthdays, your favorite movie house will be interlarding its film menu with king-size telecast of important news events.

That's the straight dope from Producer Dave Siegel, who not only is one of Hollywood's most genial gents but also one of the town's savviest.

Siegel is so certain that television is here to stay that he is building special structural installations for television in his projected Theater of Tomorrow at Palm Springs.

Not Too Distant
Siegel said today that within a few years screen-size television will be a reality and will be used as widely as an adjunct to feature programs as newsreels now are.

The producer, who now has a Detroit architectural firm designing his legitimate theater, added: "Not only will you see and hear championship prize-fights, football games, political events and other live-action happenings but you will probably be able to see specially televised acts and other entertainment simultaneously on view in hundreds of theaters."

"A Broadway opening could be seen at the same instant as its presentation in every fair-sized city."

And what will that do to show business? Siegel parried.

"There are 20,000 theaters in the United States now showing movies, yet Ken Murray's 'Blackouts' of which I happen to be half-owner—have been running in Hollywood as a flesh revue and playing to capacity houses for seven straight years. Broadway is now going stronger than ever."

For All Types
"The new theater of tomorrow is being designed to include facilities for all types of entertainment. It

would be foolish to overlook the up-and-coming television field. Palm Springs will continue to grow as the west's most important resort town and the auditorium will have a stage capable of even the most elaborate Broadway extravaganzas presentations."

"There'll be a season of legitimate attractions and possibly stock. Movies, musicals, road companies and other attractions will give the house a 365-day schedule. I hate to get the place set up and suddenly be informed that a rival house was under construction with television facilities."

Siegel, bossman of both David Siegel Productions and Triumph Pictures, Inc., two busy producing outfits, has signed John Berry former Broadway stage director whose recent movie was "Casbah" to handle the directorial reins of his initial stage presentation.

Vets To Parade Pennsylvania Week

HARRISBURG, Aug. 30.—(INS)—Veterans organizations will schedule parades in many cities throughout the state September 25 and October 2 in conjunction with Pennsylvania Week. It was announced today by the general committee headed by Brewster G. Wallace.

He said the Veterans of Foreign Wars had selected September 25 for its parade while the American Legion chose October 2, the final day of the annual Pennsylvania Week observance.

H. V. Hartman of New Kensington, VFW state commander, said civic and service organization's 24 districts would be asked to participate.

So far the VFW has arranged parades at Sunbury and Carlisle, according to Hartman.

MEXICAN BEERS TO QPS
MEXICO CITY, Aug. 30.—(INS)—The United States Army in Europe and Asia will eat Mexican chilled beef as soon as the supply system now in operation can get it to them. Eight ships with capacity of 600 tons of beef will maintain a regular service taking the entire output of the packing plant "Empacadora de Tampico."

Police Guarding Soviet Consulate In New York City

NEW YORK, Aug. 30.—(INS)—Police stood guard over the Soviet consulate in New York today as consular employees hurried their task of closing up for good.

The staff now consists of only three vice consuls, following the departure of ex-Consul General Jacob Lomakin on Saturday and Chief Vice Consul Zot I. Chpurnykh earlier in the week.

Leonid Fedotov, consulate secretary, said it may take two or three weeks more to finish all business. At Roosevelt hospital, Mrs. Oksana Kosenskina, whose leap for freedom touched off the Soviet-American "war of consulates" was reported in good condition.

July Industrial Activity Drops

STATE COLLEGE, Pa., Aug. 30.—(INS)—Pennsylvania's industrial activity during July dropped behind the previous month but was at a level exceeded only in the war years of 1943 and 1945.

The Pennsylvania State college business research bureau reported today that the index stood at 183 for July compared with 194 for the previous month. It was 10 points over July, 1947.

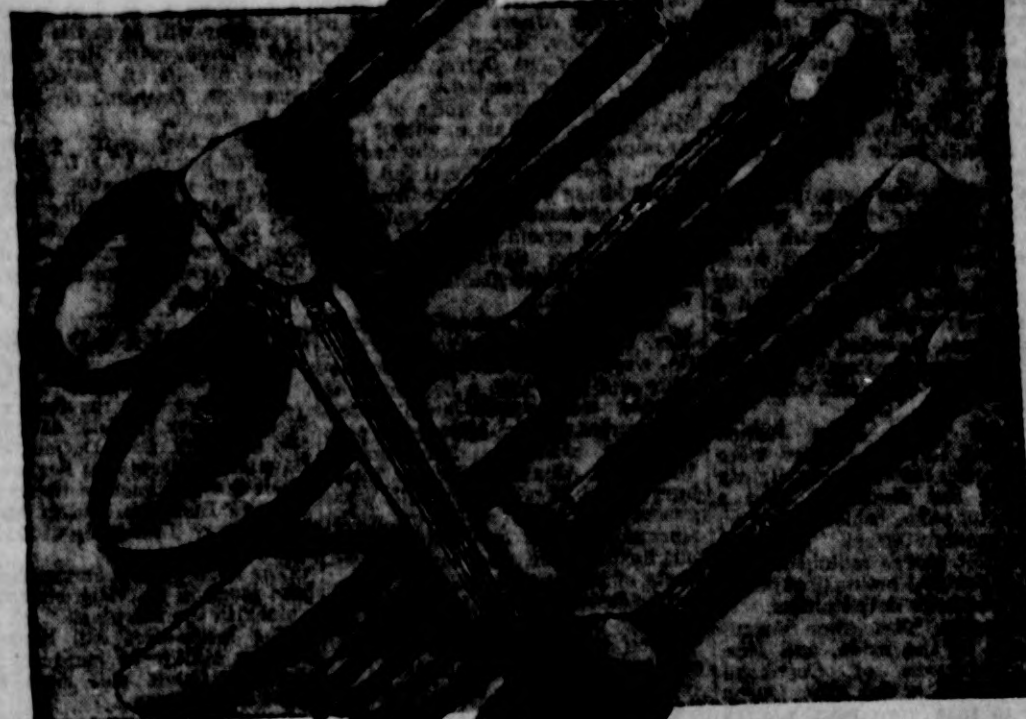

The index is based on coal production, employee hours in manufacturing and industrial power sales.

Improvement shown
The bureau said improvement was shown in July over the previous month in factory payroll, employee hours, bank deposits, new car and truck sales and anthracite coal.

Decline were registered, however, by power sales, postal receipts and insurance sales, according to the bureau.

Similarly, an anticipated seasonal movement failed to develop during July in heavy industry so ear loadings, bituminous coal, steel production and factory employment dipped below June levels, the bureau said.

Public Assistance Report Is Given

HARRISBURG, Aug. 30.—(INS)—The department of public assistance reported today that only 14 per cent of the 297,224 persons on relief during the week ended August 21 needed immediate financial aid to tide them over the gap between jobs.

The balance embraced the aged, dependent children and blind pen-
sioners, according to the DPA.

During the week, 212 persons were cut from general assistance rolls to depress that category to its lowest level in 1948.

FERGUSON-JOHNSON WEDDING IN EAST

On Saturday, August 28, at 2:30 o'clock in the afternoon, Miss Ellen Ferguson, daughter of Dr. and Mrs. Walter D. Ferguson of 8244 Brookside road, Elkins Park, became the bride of Robert B. Johnson, son of Mr. and Mrs. B. French Johnson of 325 East Wallace avenue, this city. The double ring ceremony was performed in the North U. P. church of Philadelphia by Dr. William Anderson, pastor of the bride, assisted by Dr. John Slomp, uncle of the bridegroom.

The bride, who was given in marriage by her father, wore a white tulle gown with long sleeves, ruffled wrists and neck-line. The skirt swept gracefully from a pointed waist and had a ruffled court train. Her fingertip veil fell from a seeded pearl tiara and she carried a colonial bouquet of white roses centered with gardenias.

Maid of honor, Miss Jeanne Sheppard of Kennett Square, wore a pastel peach tulle gown, lightly shirred at the shoulders with a marquisette yoke, which gave an off-the-shoulder effect. Her hat and gantlet gloves matched. She carried a colonial bouquet of peach gladioli and blue delphiniums.

Bridesmaids, Miss Alice Ferguson, sister of the bride, and Mrs. James Skidmore of Conynghua Falls, O., wore pastel aqua gowns similar to that worn by the maid of honor. They carried colonial bouquets of pink roses and baby's breath.

Ross Jones of Pittsburgh served as best man and ushers were Ben Johnson, brother of the bridegroom, and John Slomp, Jr., his cousin.

Immediately following the ceremony, a reception was held in the church. After a honeymoon in New England, Mr. and Mrs. Johnson will return to Westminster college at New Wilmington, where they both are students. They are members of Sigma Kappa and Kappa Phi Lambda fraternities.

Volbers of 639 Connecticut Drive, Erie. Dr. S. E. Irvine officiated.

The bride wore a gown of white marquisette over satin, with a yoke of imported lace, and fashioned train. Her fingertip veil fell from a headpiece of the same lace and orange blossoms, and her only jewelry was a strand of pearls, gift of the groom. She carried an arm bouquet of white gladioli, centered with an orchid.

As matron of honor her sister, Mrs. Glenn W. Means, of Franklin, wore a gown of white marquisette and lace, with a headpiece of braided marquisette and veiling and carried an arm bouquet of pale lavender gladioli. Bridesmaids, Mrs. J. H. Alexander, Jr., of Pittsburgh, and Miss Lillian Gill, wore gowns the same style, of white marquisette and lace with matching headpieces, and carried bouquets of pale peach gladioli. Junior bridesmaid, Miss Ruth Gibson, another sister of the bride, was gowned in white frosted organza and carried yellow gladioli.

Howard Volbers of Johnstown was best man for his brother, and ushers were Edwin O. Olson, William Kidd of Butler, Robert MacLennan of Erie, and Paul Gibson, brother of the bride.

As soloist Miss Betty Smith sang "Because" and "At Dawning". At the organ Miss Lenore Pyle played favorite selections of the bride.

Immediately following the ceremony there was a reception for 150 guests in the church parlors, where refreshments were served from a table appointed in white and crystal and decorated with greenery.

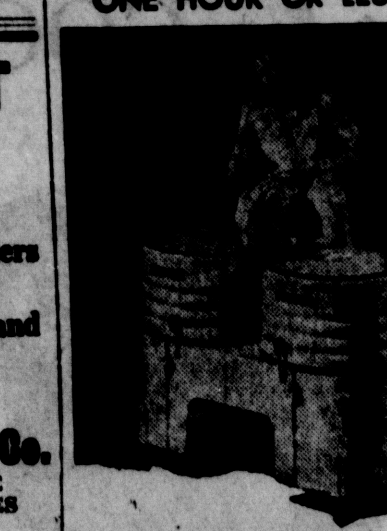

Mrs. James D. Gibson of Cincinnati, sister-in-law of the bride, and Mrs. Howard Volbers of Johnstown, sister-in-law of the groom, poured at the reception.

BIZARRE ACCIDENT

LON BEACH, Cal., Aug. 30.—

(INS)—In one of the year's strangest accidents, Gary Lowell Worrell, nine, was killed while riding on the top of his father's automobile.

When the elder Worrell stopped the car, Gary slid forward. His

head struck the vehicle's radio

aerial and the point of the metal rod pierced an eye, penetrating the boy's brain.

County Treasurer Neal Will

Start Issuing Licenses

On Wednesday

DAMAGES ARE**BOUGHT IN SUITS**

For those who like to be first in things County Treasurer Don J. Neal is all set to issue the season's first hunting licenses on Wednesday.

A large supply of tags have been received which are available to hunters at last season's prices, namely two dollars for hunters who reside in Pennsylvania. For those from other states the price is \$18.

DAMAGES SOUGHT

In an action in trespass brought by Grace M. Reynolds and John C. Reynolds, 711 Superior street, against Joseph D. Donati and Mary C. Donati, his wife, of 403 Laurel boulevard, damages in the sum of \$10,227 are asked.

The bill of complaint charges that Mrs. Reynolds had gone to a dress shop on the second floor of the building at 22 and 23 1/2 South Mill street, owned by the defendants, and when she left the building slipped on some paint which had been left carelessly by painters who were painting the building. She was thrown heavily to the sidewalk outside the building and suffered injuries which entailed expenses of \$227 for a doctor's care and for hiring help because she was incapacitated. She also asks \$5,000 for the pain and suffering she was caused and a like sum is asked for by her husband.

OPINION HANDED DOWN

In an opinion handed down by Judge W. Walter Braham in an appeal against issuing letters testamentary to Frank A. Morrison, the executor of the late J. H. Morrison, also known as J. Harvey Morrison, the appeal is sustained and the probate is ordered stricken off and the register of wills is directed to revoke the letters testamentary and to re-issue letters testamentary to Frank A. Morrison.

The appeal was based on the following facts:

J. H. Morrison died on March 28, 1947, apparently intestate, leaving an estate in Slippery Rock township. He was survived by his widow, a son, Frank A., and a grandson, William D. Blinn, by his daughter, Sue, deceased. The widow having renounced her claim to the estate, letters of administration were applied for on April 1, 1947, by the son. On May 12 a will was offered for probate which read as follows: "November 29, Dear Frank, if I never see you again I want you to have everything I own. Keep this, it may be of use to you some day. Your father, J. H. Morrison."

The court holds that the will was given to the son on the contingency that the father might never see him again and was issued in 1919 following the son's return from the army in World War I. It was held that the father did see his son again after this was issued and soon afterwards the father and mother separated and the father made a settlement on his wife.

SUES OVER CRASH

Action in trespass has been filed by Thomas Minner against the Western Electric Company, Inc. in which damages in the sum of \$8,926.00 are sought.

The plaintiff charges that he is the owner of a Mack tractor-trailer which was struck at the intersection of Routes 18 and 278, one mile west of New Wilmington, on February 11, 1948, by an automobile driven by Charles T. Bobchuck, of Pittsburgh, who was in the employ of the Western Electric Company and was en route to Sharon to supervise installation of a new telephone exchange.

Damages were done to the truck in the sum of \$3,857.09 and the plaintiff further charged that he lost the use of the truck for 12

weeks which would have netted him over \$450 per week, based on past experience.

SPECIAL REGISTRATION NEAR**END**

Special registrations which have been conducted by the county at various points are nearing an end. In some places a great number of voters have been registered while in others the response has not been so good.

In the Sixth ward on Friday only nine Republicans and four Democrats were registered.

This afternoon and evening registration is being conducted in the Fifth ward in the office of Alderman Bassano, the hours this evening being from 7 to 10 p. m.

Tuesday and Wednesday registrations will be conducted in the Second ward from 1 to 4 p. m. and from 7 to 10 p. m. On Tuesday registration clerks will sit at the Highland school and on Wednesday at the Arthur McGill school where any voters desiring to qualify to vote at the presidential election may register.

MARRIAGE RUSH ON

Maybe the heat makes folks have strange notions or maybe its the draft again but the fact remains that there has been an unusual rush on the part of folks to get married and Saturday seems to be the heaviest day of all.

For the past few weeks folks have been coming in on Saturday at the last minute just getting under the wire for the prothonotary's office closes promptly at 12 o'clock noon.

In fact last Saturday one couple came around after the doors had been shut. Prothonotary John A. Edgar and his deputies and clerks would appreciate if these prospective brides and grooms would keep this in mind and get around a little earlier.

Naval Reserve**Now Million Men**

Total Of 695,007 Enlisted Person-

nel, 304,551 Officers On

Rolls In July

The peacetime strength of the United States Naval Reserve has passed the 1,000,000 mark for the first time in history.

A total of 695,007 enlisted personnel and 304,551 officers were enrolled in the Naval Reserve on July 1, 1948, the date of the last official count. This total of 1,003,458 compares with the total of 74,721 Naval Reservists carried on the rolls as of June 30, 1941, five months before Pearl Harbor. At that time there were 51,690 enlisted men and 23,031 officers.

The planned over-all goal for the Naval Reserve is 1,175,000 for the fiscal year 1949.

At a peak period of World War II, on June 30, 1943, the strength of the Naval Reserve was 2,565,971, or 64 1/2 per cent of the total Naval personnel at that time.

Of the over-all goal of 1,175,000, approximately 250,000 are required for the Organized Reserve and approximately 925,000 for the Volunteer Reserve. Members of the Organized Reserve, who are trained in units to fill billets immediately upon mobilization, obligate themselves to attend drills and participate in an annual two weeks' training period. Members of the Volunteer Reserve are not organized in units, but are qualified or partially qualified for prescribed mobilization billets.

Well, It Seemed That Hot, Anyhow!

While everyone sweated during last week's heat wave, they wiped their brows and wondered if it was hot enough to fry an egg on the sidewalk. Mesecall who writes the News column, "From Me To You", decided to find out. So after the Saturday edition of your paper had been put to bed, Mesecall proceeded to TRY and fry an egg on the sidewalk in front of The News building. Today he reports his findings. One hot sun, one hot sidewalk. Arthur Mesecall reading 106, and one cracked (double yolked) egg. Five minutes later, one egg, with only the yolk starting to congeal. MAYBE it can be done.

Plan Final Tribute To Queen Wilhelmina

THE HAGUE, Aug. 30.—(INS)—Crown Princess Juliana stepped aside as regent of the Netherlands today so that her mother, Queen Wilhelmina, can receive a final tribute from the people she has ruled for 50 years.

WASHINGTON, Aug. 30.—(INS)—Congressional spy probes hoped today to name the persons reported to have given Whittaker Chambers a government job while he was an active Communist.

Rep. Nixon (R) Calif., declared that Chambers, now a \$25,000-a-year senior editor of Time magazine, told the House un-American activities committee that two former government officials gave him a "phony" federal job in 1937.

Chambers, according to Nixon, wanted the job to "aid his work" as a paid Communist underground worker. The government officials were reported to be members of a group accused of Communist activity by "spy queen" Elizabeth Bentley.

Nixon said he hoped their names would be revealed at today's New York session of an un-American activities subcommittee. The New York meeting was called to question J. V. Peters, alleged "brain" of the Communist underground in the United States, as he became available for subpoenas at a deportation hearing.

HERE AND THERE IN SPORTS' LAND

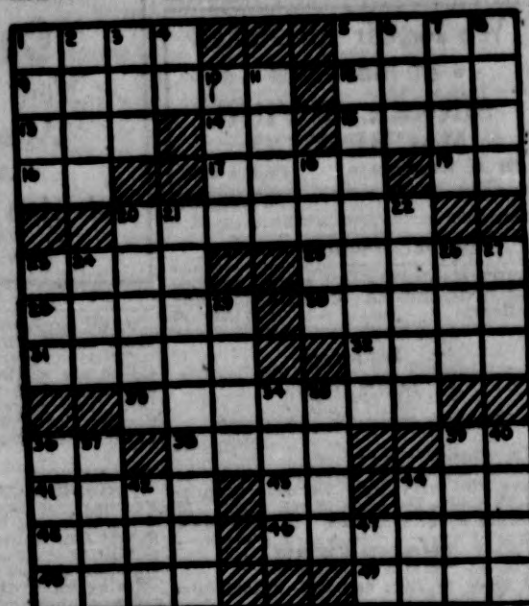

PATSY BRANNIGAN, who several decades ago, was one of the greatest fighters of all-time, visited Here & There several evenings ago, having come from Pittsburgh, to see some performers "show" at a local night club. Patsy, now 62, is "graying" but being on pension by the city of Pittsburgh has little fear of a wolf baying at his door. Patsy started fighting at the age of 13, and boxed 600 times. In his day, purses were not so great, but he boxed so many times he amassed considerable money, but being of the John L. type, he never could see a friend in need, hence most of his money went through his fingers. He boxed champion after champion, and in the 600 affairs was only on the floor once. When he got up he promptly knocked down his opponent. He was Kid Williams, bantamweight champion, and the fight occurred at Pittsburgh. There wasn't a boxer of note in either the bantamweight or featherweight division whom Brannigan didn't fight. In fact, he never asked Jimmie Dime, the name of his opponent, or what he was to receive. While George Chip won the middleweight title, Brannigan was a star when Chip had yet a name to make. The same applies for Tom McMahon and others in the great Jimmy Dime stable, which if active today would be coming money so fast they would be unable to count it. He stepped out of the bantamweight class to box Johnny Kilbane, some say, five times, and in one fight, at Pittsburgh, gave Kilbane a merry tussle. Patsy lost his chance for the bantam championship when Jimmy Dime refused to accept a fight for Patsy against Johnny Coulon. The promoters offered twenty percent and Dime held out for 35 percent, and lost the match. Kid Williams was Coulon's next opponent and won the bantamweight crown. . . . Frankie Moran of this city, a welterweight of renowned sock, received his third chance to decision or dump Eddie Bell of Akron, September 14. On boxing it looks as though it will be bell, but on a knockout, Frankie stands most chance of turning it in. If he can find a vulnerable spot on Bell's body. They are scheduled to box in Ellwood City for the Police Department Pension Fund. Another match on the card will be Bill Bradley vs. Johnny Izzo, Billy Poma, another knockout artist of Ellwood, plus Chuck Gibbons, rugged welterweight, will be among those to be seen unfurling punches.

The average player on the 1948 Cincinnati squad is six feet, one director of athletics, is a top-flight bowler. He's competed in 30 years old.

Bill Connelly, Villanova's new director of athletics, is a top-flight bowler. He's competed in numerous national tournaments.

Top Amateurs Vie In Memphis Golf

MEMPHIS, Tenn., Aug. 30.—Six former U. S. amateur champions and two British amateur kings today topped a field of 210 golfers shooting for Robert (Skeg) Riegel's national amateur golf crown. The defending champion from Monterey, Cal., found himself in the thick of things with a first-round match today against Dick Ewart, a fellow Californian from Santa Ana. The Riegel-Ewart match was one of the 82 scheduled for opening day of the 48th annual tournament over the par-70 Memphis country club course. USGA officials figure this year's tourney is "the most competitive in history."

Cy Young, who leads them all with 511 victories compiled in 22 seasons, is the only pitcher to hurl a no-hitter in both leagues.
